Dr. Joshua Lederberg
President
The Rockefeller University
1230 York Avenue
New York, New York 10021

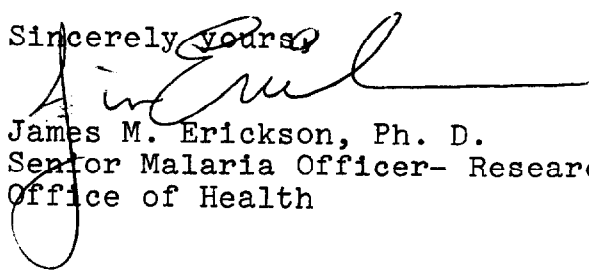

Dear Dr. Lederberg:

I just wanted to thank you for your time last week during which we discussed our mutual interest in the forward progress of our Malaria Immunity and Vaccination research project with Dr. William Trager. After talks with your senior staff, I am sure we will be able to work together towards an amicable solution to Dr. Tragers salary requirements after June 30, 1980.

Our discussions concerning Drs. Langreth and Reese and the potential for continuing malaria vaccine research at Rockefeller University past 1981 were very informative and I look forward to continued discussions on these matters.

Again, I wish to thank you and your staff and faculty for the many courtesies shown to me during my short visit.

Sincerely yours,

James M. Erickson, Ph. D.
Senior Malaria Officer- Research
Office of Health
